

# WATERCREST

SENIOR LIVING

welcomes you to:

# WATERCREST SHARES

*If it's important to you, it matters to us!*

## TECHNOLOGY ENHANCEMENTS

iN2L™ is a technology system that integrates the hardware, software, media and various components necessary to allow virtually any person with interest in using a computer — regardless of background, physical or intellectual abilities — to do so pleurably, engagingly, and without frustration.

Engagement in the platform may reduce anxiety, provide entertainment, or stimulate reminiscing conversations.

iN2L™ has content designed by experts in the field of dementia care to reach a range of function levels and interests to help engage people with dementia.

The iN2L™ Memory Care focuses on desired outcomes for individual or group engagement.
